A

- Academic Pediatric Association, residency educational guidelines of, 942
- Accessible care, in medical home, 955–956
- Accreditation Council for Graduate Medical Education, 988
 - residency training guidelines of, 935, 943–944
- Adverse events, rapid response system for, 920–921
- Agency for Healthcare Research and Quality indicators
 - application of, 821, 824–825
 - challenges to selection and use of, 825–827
 - development of, 819–823
- All Patient Refined Diagnostic Related Groups, 739
- Alliance for Pediatric Quality, 915, 991
- Ambulatory setting, quality improvement and safety in, **935–951**
 - challenges to teaching, 946–947
 - current status of, 936–940
 - graduate medical education requirements in, 941–942
 - guidelines for, 942
 - learning opportunities in, 943
 - residency competencies and, 940–941, 943–945
 - training for, 945–946
- American Academy of Family Physicians, quality measurement recommendations of, 936
- American Academy of Pediatrics
 - medical home guidelines of, 955–958
 - “Principles for the Development and Use of Quality Measures,” 817
 - quality measurement recommendations of, 936
- American Board of Medical Specialties, 987–992
- American Board of Pediatrics, quality improvement guidelines of, 943
- American Recovery and Reinvestment Act of 2009, 1015
- Animal care facilities, continuous performance improvement of, 811–813
- Arthritis/rheumatology module, of Pediatric Quality of Life Inventory, 848
- Associates in Process Improvement, model developed by. *See* Model for Improvement.
- Asthma care
 - quality improvement in, 765–777
 - toolkit for, 937
- Asthma module, of Pediatric Quality of Life Inventory, 847

B

- Balancing measures, in Model for Improvement, 784–785
- Baselines, for Model of Improvement, 790
- Best Pharmaceuticals for Children Act, Pediatric Exclusivity Provision of, 844

Better Pharmaceutical for Children Act, 1015
 Bloodstream infections, in neonatal intensive care unit. *See* Neonatal intensive care unit
 bloodstream infection performance.
 Board certification, **987–994**
 Brain tumor module, of Pediatric Quality of Life Inventory, 848
 Bridges to Excellence program, 1003–1004
 Built-in quality, in continuous performance improvement, 802
 Business case, for quality, 911

C

California, neonatal intensive care unit bloodstream infection performance improvement
 networks in, 878–889
 Cancer module, of Pediatric Quality of Life Inventory, 848
 Capacity, of health care, variation in, 752
 Cardiac arrest, rapid response system for
 outcomes for, 921–922
 warning signs and symptoms of, 922–924
 Cardiac module, of Pediatric Quality of Life Inventory, 848
 Centers for Medicare and Medicaid Services, pay for performance and, 1003
 Central line process, continuous performance improvement in, 804–805
 Cerebral palsy module, of Pediatric Quality of Life Inventory, 848–849
 Certification, **987–994**
 Change (ideas), in Model for Improvement, 760–762
 implementing, 782–783
 spreading, 772–777
 sustaining, 769–772
 testing, 761–763
 Change package, in Model for Improvement, 761–762
 Child Health Insurance Program Reauthorization Act (CHIPRA) of 2009, 1009
 Child Health Program Reauthorization Act of 2009, 1016–1018
 Children's Health Insurance Program, 915–916, 971, 1010–1011, 1014
 Chronic health problems, home care of. *See* Medical home.
 Cincinnati Children's Hospital, quality improvement in, 913–914
 Clinical pathways, **893–904**
 as teaching tools, 901–903
 creation of, 898–899
 for high-quality care delivery, 893–897
 hospitalists role in, 897–900
 implementation of, 899–900
 maintenance of, 900
 Clinical practice applications, of continuous performance improvement, 804–806
 Clinical practice guidelines, for pay for performance, 1001
 Codman, Ernest, quality improvement studies of, 780–781
 Commission on a High Performance Health System, 1011
 Communication
 in interdisciplinary teams, 979
 mediation errors due to, 940
 Compassionate care, in medical home, 957–958
 Comprehensive care, in medical home, 956–957
 Continuous care, in medical home, 956

Continuous performance improvement, 799–813

- built-in quality in, 802
- clinical practice applications of, 804–806
- in academic teaching setting, 806–808
- in central line process, 804–805
- in emergency department throughput, 805–806
- in surgical site infection prevention, 805
- just-in-time principle in, 802
- rapid process improvement workshop in, 802–804, 807–808
- research applications of, 809–813
- standard work in, 801–802
- value stream in, 800–801
- waste in, 801

Control charts, 775**Coordinated care, in medical home, 957****Costs**

- drivers of, 734–735
- reduction of, 733–734, 736–737
- wasted, 735–736

Crosby, Philip, 758***Crossing the Quality Chasm*, 758, 833–834, 956, 965–966, 988****Culturally effective care, in medical home, 958*****Curing Healthcare*, 758****Cut-point for at-risk status, in Pediatric Quality of Life Inventory, 856****Cystic Fibrosis Foundation, quality measures of, 938****D****Data collection, for Model of Improvement, 789****Deming, W. Edward, 757–758, 781, 833****Diabetes module, of Pediatric Quality of Life Inventory, 848, 857****Disaster preparedness, information technology for, 971****Donabedian structure-process-outcome model, 732, 781, 819****Drugs, costs of, 735****E****Early and Periodic Screening, Diagnosis, and Treatment program, 1011, 1014****Effective care, variation in, 750****Electronic Quality Improvement in Pediatric Practice modules, 989–990****Emergency department throughput, continuous performance improvement in, 805–806****Errors, in health care**

- ambulatory, 939–940
- continuous performance improvement controlling. *See* Continuous performance improvement.
- medication, 940
- prevention of, rapid response system for, 920–921

Evidence-based care, 1015**F****Family involvement**

- in hospital quality improvement, 911

Family (*continued*)

- in medical home, 956
- in rapid response team activation, 930–931

Fatigue module, of Pediatric Quality of Life Inventory, 849

Feedback, in Model for Improvement

- principles of, 791–792
- purposes of, 782

Financial incentives, for pay for performance, 1002

Flexner Report, 987–988

Focused Professional Practice Evaluation, 740

G

Glover, J.A., study, of unwarranted variation in healthcare, 746–747

Goals, for Model of Improvement, 790

H

Harvard Medical Practice Study, 920–921

Hastings Center report, on quality improvement, 832–833, 837–838

Health Care Cost and Utilization Project, 749

Health Effectiveness Data and Information Set, 1003–1004

Health information technology

- for quality improvement, **965–973**

- strategies for

- disaster preparedness and, 971
- federal, 968–970
- functional, 966–967
- private sector, 971
- state, 970–971

- tools for, 967

- health policy and, 1017

Health insurance coverage, 999–1000, 1011

Health policy, **1009–1021**

- accountability, 1017–1018

- benefits, 1011, 1014

- capacity of improve care, 1015–1016

- demonstrations, 1017

- evidence base, 1015

- future impact of, 1016–1018

- health information technology, 1017

- health insurance coverage, 1011

- importance of, 1009–1010, 1012–1013

- provider access, 1011, 1014

- quality measurement, 1016–1017

- realized access to comprehensive services, 1014–1015

- scope of, 1010–1016

- supportive, 915–916

Healthcare Cost and Utilization Project, 824

Healthcare Effectiveness Data and Information Set, 936

Health-related quality of life, measures of

- generic instruments for, 843–845

- parent-proxy report as, 844
- patient-reported outcomes in, 844
- Pediatric Quality of Life Inventory, **843–863**
- Hospital care, quality improvement in, **905–918**
 - at national level, 914–915
 - building will for, 909–920
 - business case for, 911
 - capability for, 912
 - creating urgency in, 915
 - engaging patients and families in, 911
 - infrastructure for, 912
 - leadership for, 908–909
 - public policy support for, 915–916
 - reliability in, 912–914
 - standardization in, 912–914
 - strategic approach to, 906–908
 - transparency in, 911
- Hospitalists, clinical pathways and, 897–900
- House staff, teaching tools for, 901–903

I

- Ideas. *See* Change (ideas).
- Immunization
